SEVERE WEATHER ALERTS

SEVERE THUNDERSTORM WATCH — Conditions are favorable for the development of severe thunderstorms. It is important to think about where you will be during the lifetime of the watch. If you are outdoors, develop a plan to include directions to the nearest shelter.

SEVERE THUNDERSTORM WARNING — Means a severe storm is imminent: occurring or about to occur. It is important to get to safety immediately. Severe winds — gusts of 58 mph or more — can down trees and power lines.

TORNADO WATCH — Atmospheric conditions are favorable for tornadoes and severe thunderstorms. It is important to think about where you will be during the lifetime of the watch. If you are outdoors, develop a plan that includes directions to the nearest tornado shelter. If you are indoors, think about where you should go in the event of a tornado.

TORNADO WARNING — Means a tornado is imminent: occurring or about to occur. It is important to get to safety immediately.

Be aware of designated Storm Shelter Areas near you.
