### History

In 1856, the town was incorporated as Kilbourn City, in honor of the railroad's president. In 1931, it was officially changed to Wisconsin Dells, the name the locals and tourists had always used, with "Wisconsin" derived from the Native American word meaning "dark rushing waters," and "Dells" mimicking the French word "dalles" that means "layers of flat rock" to describe the bluff rock formations. The striking sandstone formations along the banks of the Wisconsin River started attracting visitors to the area in the late 1800's.
