

## 2 Page Spread Specs

Bleed 15.75x10.25

Trim 15.5x10

Live Area 14.75x9.25

The diagram illustrates a two-page spread layout. A central vertical grey bar represents the gutter. A blue vertical line is positioned to the right of the gutter, defining the edge of the live area. The text 'Gutter Safety Area' is centered between the gutter and the blue line. The overall layout is enclosed in a green border, with a pink border on the outermost edge.

Gutter Safety Area

**Horizontal Half Spread Bleed Specs**

Bleed 15.75x4.75

Trim 15.5x4.5

Live Area 14.75x4

Gutter Safety Area

The diagram illustrates the layout of a horizontal half spread. It features three nested rectangular frames. The outermost frame is magenta, representing the overall dimensions. The middle frame is blue, representing the trim area. The innermost frame is green, representing the live area. A vertical grey bar is positioned in the center, labeled 'Gutter Safety Area', which overlaps the trim and live area frames.
